ABOUT FPT INDUSTRIAL

FPT Industrial is the Brand of Iveco Group, dedicated to the development, production, sale and assistance of powertrains for Marine, On-Road, Off-Road and Power Generation applications.

The company employs more than 8,000 people worldwide, in ten manufacturing plants and seven R&D centers. The FPT Industrial sales network consists of 73 dealerships and about 800 service centers in almost 100 countries. A wide product offering, including six engine ranges from 42 hp up to 1,000 hp, transmissions with maximum torque of 200 Nm up to 500 Nm, front and rear axles from 2 to 32 ton GAW (Gross Axle Weight). FPT Industrial offers the most complete line-up of Natural Gas engines on the market for industrial applications, with power that goes from 50 to 460 hp. This extensive offering and a strong focus on R&D activities make FPT Industrial a world leader in industrial powertrains.

We work for businesses serving other businesses, and we are committed to satisfy the requirements of both direct and final Customers.
We are proud to be an innovation-driven Company, that builds Customer advantage through continuous research and improvement, and creates value by leveraging this advantage.
Today FPT Industrial is one of the leading world players in engines, axles and transmissions for the Industrial sector, ranking among the first four manufacturers worldwide in the 2- to 20-liter Diesel engine segment.

THE WAVE OF INNOVATION

FPT Industrial's engines for pleasure and commercial boats stand out for superb quality, features and application versatility. They bring maximum and continuous specific power and torque at low revolutions. They achieve better efficiency in all sea conditions. They also boast an impressive durability.

A dramatic reduction of noise and vibrations combines power with sailing pleasure. Exhaust gas emissions have been cut down too, lowering environmental impact and complying with the most stringent legislation.
Our engineering experience has delivered a lightweight design, with low volume/power and weight/power ratios, for easier installation and superior performance.

Superior Technology & Outstanding Advantages

Performance
Maximum and continuous high specific power. High torque at low revs. Lightness (weight/power low ratios).

Flexibility
Compactness (volume/power low ratios). Full range of accessories available. Wide range of emission and propulsion certifications. Keel cooling versions availability.

Low Environmental Impact
Drastic reduction of exhaust emissions.
Low noise and vibrations.

Low Operating Costs
Longer maintenance intervals costs.
Longer overhaul intervals

Marine Emission Regulations

IMO

kW	HP	2017	2018	2019	2020	2021	2022
>130	>174	Tier II (Tier III ECA areas only)					

The International Maritime Organization (IMO) regulates exhaust emissions on diesel engines above 130kW (174 hp). Engines used exclusively in emergency applications are exempt. IMO Tier III applies only when operating within a NOx Emission Control Area. The Tier III regulation is in effect for North America and US Caribbean Sea NOx ECA's for vessels built after January 1, 2016.

EU

kW	HP	2017	2018	2019	2020	2021	2022
19-299	25-401	Stage IIIA			Stage V		
>299	>401	Stage IIIA			Stage V		
Pleasure		RCD 2					

The Nonroad Mobile Machinery Directive regulates exhaust emissions from diesel engines installed on inland waterway vessels operating in the EU. The RCReational Craft Directive regulates noise and exhaust emissions from propulsion engines installed on rCReational craft operating in the EU.

US EPA

kW	HP	2017	2018	2019	2020	2021	2022
<600	<805	Tier 3					
≥600	≥805	Tier 4					

The United States Environmental Protection Agency (EPA) regulates exhaust emissions from diesel engines installed on US flagged/registered marine vessels.

Marine Rating Classification

Full load reference conditions

Reference	ISO 8665
Ambient pressure (kPA):	100
Ambient temperature (°C):	25
Relative humidity (%):	30
Fuel density (kg/dm³):	0.84
Fuel calorific value (kJ/kg):	42700
Fuel temperature (°C):	40

Rating classification

		Definition
A1	Short range fast pleasure service	Limited to 10% of time Cruising speed at engine rpm <90% of calibration rated speed 300 h/y
A2/B1	Long range pleasure/ commercial service	Limited to 10% of time Cruising speed at engine rpm <90% of calibration rated speed 1000 h/y
B	Light duty	Limited to 10% of time Cruising speed at engine rpm <90% of calibration rated speed 1500 h/y
C	Medium duty	Limited to 25% of time Cruising speed at engine rpm <90% of calibration rated speed 3000 h/y
D	Heavy duty	up to 100% of time unlimited h/y

[1] Dimensions can be changed according to engine options
[2] Length at flywheel

Rating	kW	hp	rpm	g/kWh @ rpm (Best Value)	IWV
D	125	170	2000	207 @ 1200	●

Air Handling
- TCA Turbocharged with aftercooler
- TC Turbocharged
- NA Naturally Aspirated

Injection System
- M Mechanical
- CR Common Rail
- EUI Electronic Unit Injector

C90 380

Arrangement:	6 Cyl. in line
Total Displacement (L):	8,7
Max Power (kW (Hp) @ rpm):	301 (410) @ 2.000
Thermodynamic cycle:	Diesel 4 stroke
Air handling:	TCA
Valves per cylinder:	4
Cooling System:	Liquid
Direction of Rotation (viewed facing flywheel):	Counterclockwise
Engine management:	Electronic
Injection System:	CR

Red Horizon

FPT Industrial, in collaboration with two leading companies, NAVICO (SIMRAD) and ZF, is proud to introduce RED HORIZON: a "Premium" integrated system for engine/navigation monitoring and controls with state-of-the-art technologies.

Monitoring Systems

FPT 7" Premium Display Key Features

Based on SIMRAD technology, the FPT Premium 7" is a compact display, perfect for small-medium sportboats, dayboats, and center-consoles. Dedicated to monitoring engine data, the panel offers the chance to extend the display options on a wide range of navigation functions.

- Widescreen display with LED backlight
- Easy to use tablet-style touchscreen controls
- Wide range of engine data, alarm monitoring and options such as the on-board entertainment system control
- Multi Function Display option: fully featured chartplotter (C-MAP charts) with built-in GPS receiver, and monitoring of additional options*, like radar, echosounder and autopilot
- Built-in wireless connectivity to a compatible smartphone or tablet, giving access to charts, radar and other functions from anywhere on board
- In addition to the 7-inch display the 9'', 12'' and 16" MFD sizes complete the FPT Premium Display series

* Devices provided by NAVICO (SIMRAD) network

Electronic Control Systems

Electronic Controls - FPT Premium Control Key Features

FPT uses ZF electronic propulsion control systems at the cutting edge of electronics technology, specifically matched for FPT engines

- The Premium electronic control is a powerful system that integrates the latest CAN bus technology in an innovative and compact control head, with an ergonomic lever and a user-friendly display where all functions can be easily selected
- With an easy plug-in installation, the "Premium" control provides complete governance of navigation offering bottom set up, start interlock, emergency reversal protection, engine synchronisation and optional features for docking or trolling
- Up to six control stations.

Manoeuvring Systems - FPT Premium Joystick Key Features

Controlling engines, transmissions and thrusters simultaneously, the "Premium joystick" provides unbeatable ease of vessel control during manoeuvres. The "Premium joystick" offers the following main advantages: vessel control at low speed, easy manoeuvring in tight spaces, vessel positioning against wind and current

Main technical features:

- 12/24 V DC system
- CAN based joystick station, with one push button to take control and select functions
- CE certified Manoeuvring Control Unit
- CAN connection to "Premium control" processor
- Options:
  - Hold Position
  - Interface with ZF Steer Command
  - Up to six control stations

Marine Engine Options

FPT Industrial offer a whole range of options to complete your engine:

- Suspensions (Silent block)
- Electrical system 12V/24V
- Insulated poles electrical system
- Uprated Alternators
- Front PTO
- Instruments kit
- Digital and analog panels
- Water cooled or dry exhaust pipes
- Gearboxes
- Emission and Propulsion engine certification with several classification societies
- NMEA2000 Converter
- Remote Control lever
- Red Horizon

Please contact your local distributor on our locator at fptindustrial.com to get more information.
