# LONG BLOCK

## New genuine product
## Solutions ready to be installed.

We have extended our product offer with new genuine solutions ready to be installed offering Long Block assembled in the production plant. FPT Long Blocks are the best and quickest solution for engine repair/overhaul, maximizing the uptime of your machine since Long Block is an alternative option to replacing many individual components.

These are ready-to-fit replacement parts fully compliant with FPT standard, granting best price quality value and optimum engine performance.

Main components of Long Block are:

- Short block
- Head cover
- Equipped cylinder head
- Oil sump
- Heat exchanger (according to the variant)

# Why choose a Genuine FPT Long Block

A single part number is all you need to obtain the parts you require to overhaul your engine quickly and since sometimes the damage found on the engine does not affect operation  important elements such as turbo or injection system, those components could be recovered allowing a cost reduction.

A limited number of Long Blocks can cover a large fleet of engines and applications that you can assist by optimizing stock management and limiting risks of obsolescence.

**REPAIR COST REDUCTION**
Recovery of undamaged components after engine repair.

**OPTIMIZED PROCESS**
Risk mitigation in terms of availability, savings of time and money by ordering a single part number (e.g. working capital, warehouse space).

**MACHINE UPTIME**
Earlier machine availability for the customer since no intervention or assembly of the internal elements is required.

**REDUCING RISK OF ASSEMBLY ERRORS**
Long Block assembled are directly shipped to the network. This grants a perfect fit in your machines.

***MAXIMUM QUALITY GUARANTEED BY GENUINE PRODUCT.***

# Genuine Parts Benefits

FPT is the only one who can guarantee the original quality and performance of your engines. By using Genuine parts, made by those who built your engine, you ensure long-lasting performance and over-time value of your investment.
