

My needs,

MYFPT

***“MY” IS MORE THAN A WORD.
IT’S A BELIEF AND A PROMISE.
TO TREAT YOU AS A PERSON,
A CLOSE FRIEND, A PARTNER.***

***To make you feel heard and understood.
To take care of your engines as you would.
To make our customer service your own.***

MYFPT KNOWS ME BETTER THAN I DO.

People who have tried MyFPT can certainly say so. They all have their own needs and desires. That is why they deserve tailor-made services and customized solutions, developed to respond to their specific business.

MYFPT IS HUMAN. TECHNO- LOGICALLY HUMAN.

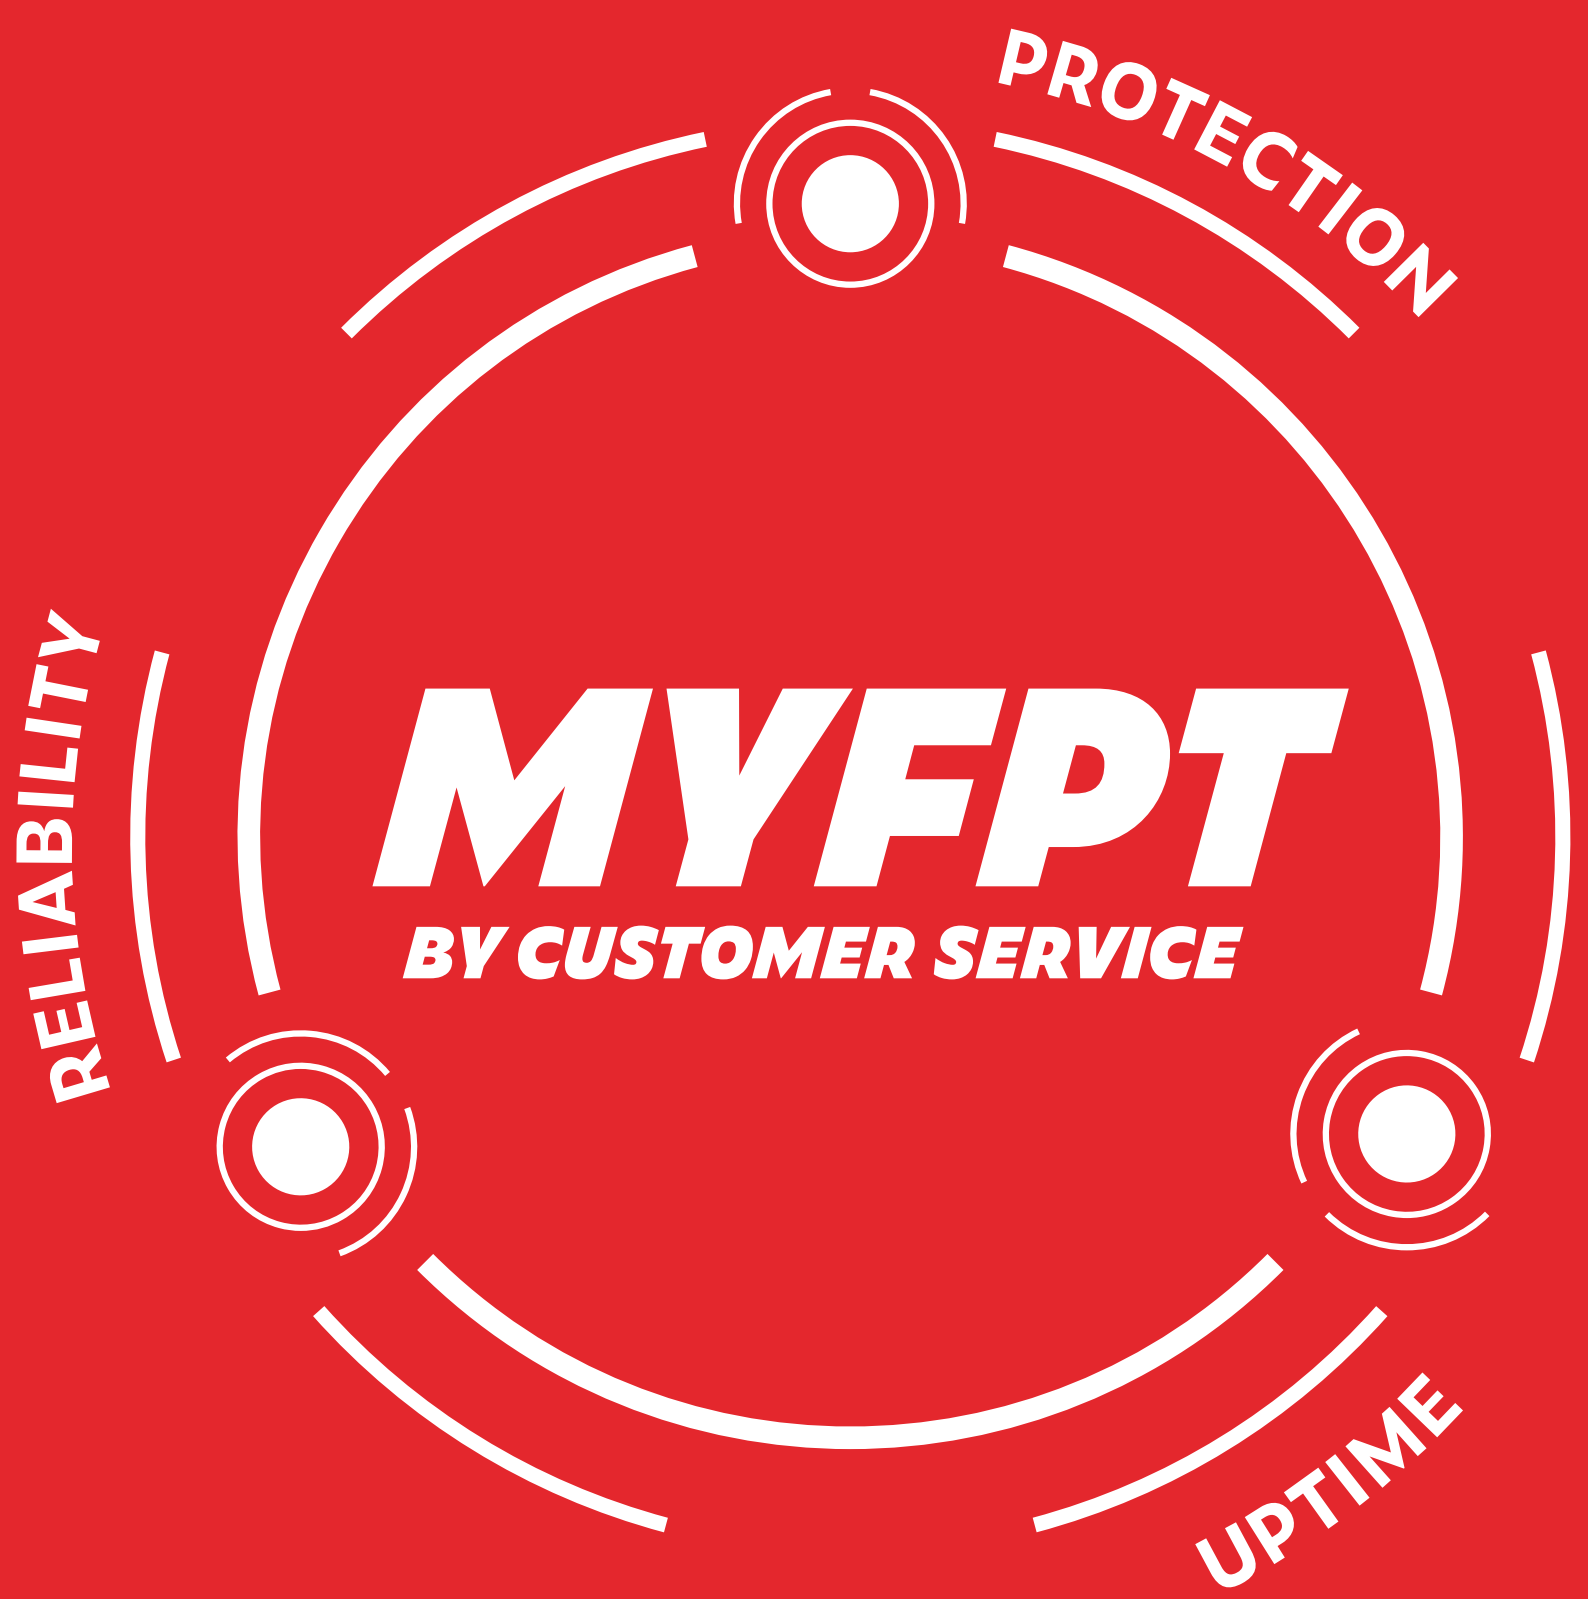

Simpler, faster, closer. Technology has changed our lives, our relationships and our perceptions. Providing quality services obviously means offering high-tech utilities and innovative tools that enhance our experience.

But it is also about human dynamics.

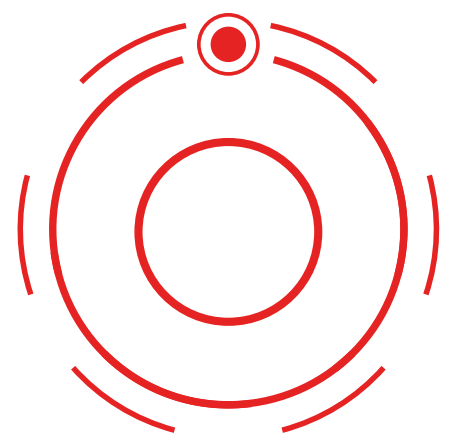

We believe that a deep understanding of the clients, an honest interaction with them and the full availability of our team can really make a difference.

Things that no technology could do for us.

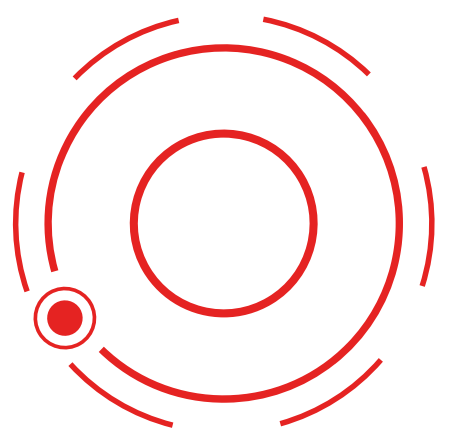

**Three simple values
to sum up our approach.**

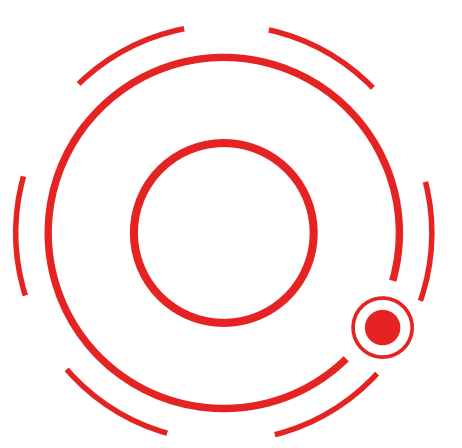

PROTECTION

There's nothing better than feeling safe and protected. And we will do everything we can to make you relax as much as possible.

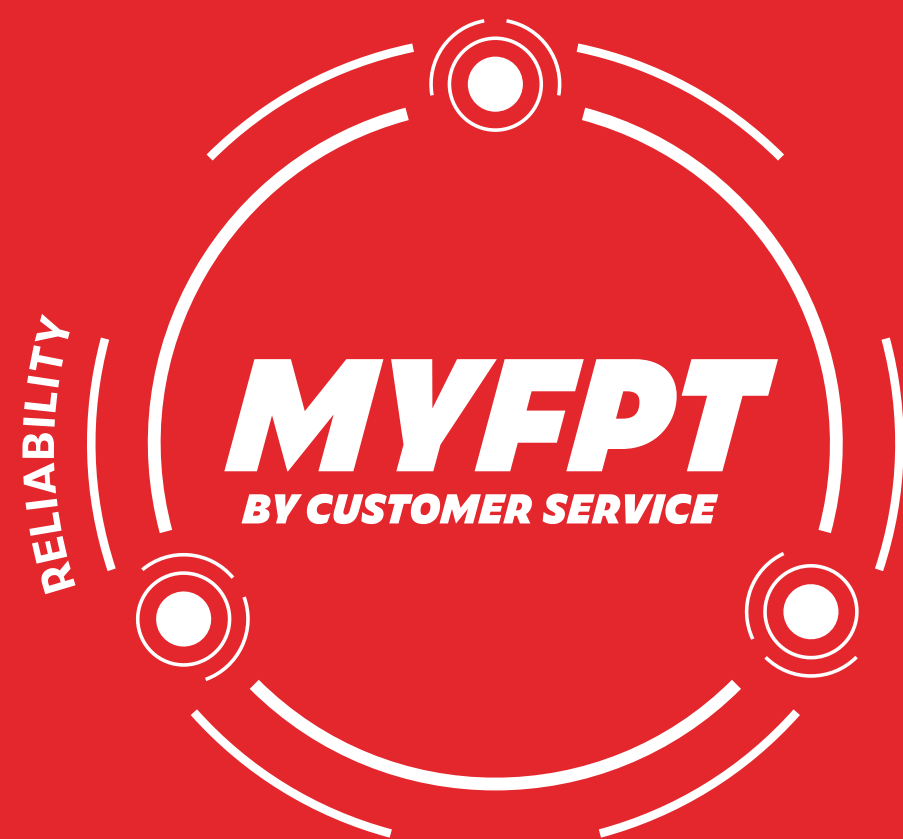

RELIABILITY

Issues happen. But you have nothing to worry about if you can count on the right partner.

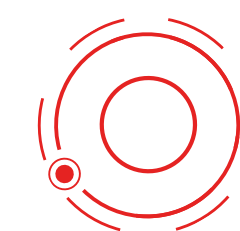

UPTIME

Exactly what you need when you need it and where you need it. Because timing is essential to guarantee quality.

GENUINE PARTS

High quality, total compatibility and longer durability. Our genuine certified components will make your engine feel as strong as the day it left our factory.

ORIGINAL REMANS

We fully inspect, clean, test every remanufactured engine & parts and we provide it with a full warranty. Convenient for you, sustainable for the planet.

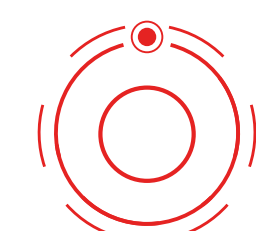

OILS AND COOLANTS

In engines, hardware is important, but it is not enough. MyFPT fluids ensure the highest performance and long durability for all applications.

PROACTIVE ASSISTANCE

Yes, it sounds like magic, but we can foretell the future of your engine. We monitor your engine's parameters live remotely, predict possible issues and intervene if necessary.

REMOTE ASSISTANCE

We do not have to look at your engine to check its most important parameters. So you can keep on working while we do.

MOBILE APP

No matter how far you are, thanks to MyFPT App you can always check your engine and rely on remote technical support. All on your smartphone.

***YOU ASK
FOR THE
BEST.
WE MAKE IT
HAPPEN.***

When the market is more and more challenging, it is essential to be able to count on reliable partners. We work together with you to provide tailor-made solutions to maximize engine performance and durability. Simply everything we can do to support you and your business.
