

FPT INDUSTRIAL LIGHTS UP POWERGEN INTERNATIONAL 2024 WITH ITS GENERATION OF POWER

Turin, Italy, December 19, 2023

FPT Industrial will be back at **POWERGEN International**, the largest networking and business hub for electricity generators and solutions providers engaged in **power generation**, confirming its dual preeminent role of **diamond premiere sponsor and major exhibitor for the 4th year in a row**.

From **January 23 to 25, 2024**, the Iveco Group brand dedicated to the design, production, and sale of low-environmental impact powertrains will light up the **Ernest N. Morial Convention Center in New Orleans (Louisiana, USA)** with its full range of **Tier 3 and Tier 4 Final / Stage V, 3.4 – to – 16-liter engines for power generation**, ready to put their high **performance, superior flexibility, top reliability and lowest cost of ownership at the service of all markets and customers**.

FPT Industrial will harness this important occasion to show also its strategy in this sector, based on three main pillars.

First, customers can reduce their product complexity and costs, by choosing a **single, reliable, proven, and full-line provider**, namely FPT Industrial.

Second, FPT Industrial engines **feature cutting edge technologies to answer all the different market needs**.

Finally, all FPT Industrial products can provide **outstanding and reliable performances** even in extreme weather conditions, just like the incredible cold spell that hit North America in the first month of 2023.

The **Customer Service** corner will be present in the booth to deliver information on useful remote, real-time support services.

FPT Industrial is a brand of Iveco Group N.V. (EXM: IVG), dedicated to the design, production, and sale of powertrains and solutions for on- and off-road vehicles, as well as marine and power generation applications. Over 8,000 people across ten production sites and eleven R&D centers work for FPT Industrial all around the world. Active in nearly 100 different countries, its global sales and its Customer Service department supports all Brand customers. The extensive product offering includes six engine ranges with power outputs from 42 hp to over 1,000 hp, transmissions with torque up to 500 Nm, and front and rear axles from 2.45 to 32 tonne GAW (Gross Axle Weight). FPT Industrial offers the most complete line-up of natural gas engines for industrial applications on the market, with power outputs ranging from 50 to 520 hp. A dedicated ePowertrain division is accelerating the path towards net zero-emissions mobility, with electric drivelines, battery packs, and battery management systems. This extensive offering, and its strong focus on R&D, makes FPT Industrial a world leader in industrial powertrains and solutions. For more information, visit www.fptindustrial.com.
