

FPT INDUSTRIAL NORTH AMERICA ANNOUNCES STAUFFER DIESEL DISTRIBUTION PARTNER EXPANSION INTO NORTHEAST USA

Turin, Italy, March 14th, 2025

FPT Industrial distributor, Stauffer Diesel, is expanding our Marine engine offering into the northeastern United States. For over 5 years, Stauffer Diesel has been a distributor of FPT Industrial's off-road engines, and in 2023 began to offer marine engines in the mid-west, including Illinois, Indiana, Iowa, Michigan, Minnesota, New York Great Lakes, Ohio, Pennsylvania, and Wisconsin. Late last year, Stauffer Diesel formally acquired further distribution for Marine engines throughout Connecticut, Delaware, New Hampshire, New Jersey, New York, Maine, Maryland, Massachusetts, and Rhode Island.

As **Braden Cammauf, VP of FPT Industrial North America** explains, *"We look forward to expanding our coverage into the northeast USA with our esteemed partner, Stauffer Diesel. In building up their marine business, in addition to our industrial engine portfolio, we see a bright future growing our business together."*

Tim Stauffer, CEO of Stauffer Diesel adds, *“We are excited to partner with the existing marine dealer network throughout the Northeast, while working to bring additional dealers on board to support our customers. If you are interested in becoming an FPT dealer, please contact Stauffer Diesel at staufferdiesel.com.”*

Stauffer Diesel will provide FPT Industrial's Marine diesel propulsion engine lineup, including the high-performing and noticeably quieter NEF and Cursor series. The NEF series, used in commercial and pleasure vessels, is available in 4.5 and 6.7 liters, in both mechanical and electronic versions. The Cursor series offers 9- and 16-liter high-power engines, with best-in-class fuel consumption, for light and medium duty commercial applications. These engines offer high power outputs, with maximum torque available at low engine speeds, and low fuel consumption, while ensuring maximum performance and reliability, thanks to FPT Industrial's innovative technologies and production processes. FPT Industrial is a brand of Iveco Group (IVG: MI), dedicated to the design, production, and sale of powertrains and solutions for on- and off-road vehicles, as well as marine and power generation applications. Over 8,000 people across ten production sites and eleven R&D centers work for FPT Industrial all around the world. Active in nearly 100 different countries, its global sales and its Customer Service department supports all Brand customers. The extensive product offering includes six engine ranges with power outputs from 30 hp to over 1,000 hp, transmissions with torque up to 500 Nm, and front and rear axles from 2.45 to 32 tonne GAW (Gross Axle Weight). FPT Industrial offers the most complete line-up of natural gas engines for industrial applications on the market, with power outputs ranging from 50 to 520 hp. A dedicated ePowertrain division is accelerating the path towards net zero-emissions mobility, with electric drivelines, battery packs, and battery management systems. This extensive offering, and its strong focus on R&D, makes FPT Industrial a world leader in industrial powertrains and solutions. For more information, visit www.fptindustrial.com.
