

FPT INDUSTRIAL DELIVERS HIGH-POWER STAGE V ENGINE TO ARBOS P7000 TRACTORS

Turin, November 7th, 2018

FPT Industrial is powering the **Arbos P7000** tractor series with the **N67 Stage V**, its high-performance engine compliant with Stage V emission regulations. The new Arbos flagship series will comprise three tractor models and, following its development phase, will be unveiled at **EIMA 2018**, from November 7th to 11th.

Together with the N67 Stage V, the P7000 tractors are designed for **outstanding efficiency**. The FPT Industrial unit is a 6.7-liter, 6-cylinder engine that delivers maximum power of **206 kW @ 1900 rpm** and maximum torque of **1100 Nm @ 1400 rpm**.

PRESS RELEASE

The FPT Industrial N67 Stage V

The engine's wastegate, developed by FPT Industrial for Arbos P7000 tractors, contributes to its **high power** and **quick response**. The N67's power and torque density are 15% higher than the competitors' average, and the engine delivers up to 3% less fluid consumption compared to the competition.

The N67's **HI-eSCR2 renowned after treatment system**, developed to comply with Stage V emission standards sets this engine apart. Besides ensuring **compliance** with the new emission regulations, the technology ensures **high productivity, power and torque density, reliability, environmental sustainability** and **reduced operating costs**.

Improvements on its Stage V version also guarantee the same dimensions and layout compared to the previous model, preserving the **compactness** of the cooling and after-treatment system.

FPT Industrial N67 Stage V for Arbos P7000 Specifications

Architecture:	In-Line 6-cylinder engine
Injection System:	Common rail (up to 1,600 bar)
Air Handling:	Wastegate
Valves per cylinder (number):	4
Displacement (l):	6.7
Bore x Stroke (mm):	104 x 132
Rated Power:	191kW @ 2200 rpm
Max Power:	206kW @ 1900 rpm
Max Torque:	1100Nm @ 1400 rpm
EGR:	NO
ATS:	HI-eSCR2

FPT Industrial is a brand of CNH Industrial, dedicated to the design, production and sale of powertrains for on and off-road vehicles, marine and power generation applications. The company employs more than 8,000 people worldwide, in ten manufacturing plants and seven R&D Centres. The FPT Industrial sales network consists of 73 dealers and about 800 service centres in almost 100 countries. A wide product offering, including six engine ranges from 42 hp up to 1,006 hp, transmissions with maximum torque of 200 Nm up to 500 Nm, front and rear axles from 2 to 32 ton GAW (Gross Axle Weight). FPT Industrial offers the most complete Natural Gas engines line-up on the market for industrial applications, including engine ranges from 136 hp up to 460 hp. This extensive offer and a close focus on R&D activities make FPT Industrial a world leader in industrial powertrains. For further information, visit www.fptindustrial.com.
